ATTN: 2008 Makah DEIS

There is no purpose in killing any whale.

The Natl Marine Sanctuary should be a protection for all the whales without exception.

The NMFS should not ok any harpoon attempts. This is animal abuse and harassment!!

Citizens must be protected from .50 caliber rifle bullets. This is a safety issue that is beyond control, and should not be allowed.

Tourists would appreciate viewing of the whales if the Makah would be protective of the whales and never try to hurt them.

There should be no harvest of whales!
