

NOAA FISHERIES

NOAA to recognize Boeing for largest Duwamish River restoration project

Boat tour to highlight project and additional habitat restoration opportunities

WHAT:

NOAA will recognize Boeing with its national [Excellence in Restoration award](#) in honor of the largest habitat restoration project so far on the lower Duwamish River, an important step in the river's cleanup. Spanning nearly one mile of shoreline, this [new resource for fish](#) was created in the footprint of the former Boeing Plant 2 facility that was home to the B-17 during World War II. Attendees will include representatives from tribes and local and state elected officials.

EDITOR'S NOTE: RSVP to megan.e.hilfer@boeing.com by June 18 for media credentials. Photo ID required at check-in.
