WELCOME TO IFQ

Welcome to the Individual Fishing Quota (IFQ) online system. This guide shows you how to do the following:

- Use the IFQ system, whether you are a quota share (QS) account holder or vessel account (VA) owner.
- View quota share (QS) and vessel accounts (VA) public pages before you log on to the IFQ system. This allows you to search for individual quota share (QS) % and quota pound (QP) balances.
- Initiate, accept, decline, and retract quota pound (QP) transfers.
- Review your IFQ catch data (VA owners).
- Check your QS and VA renewal status.
- Change your password.

SYSTEM REQUIREMENTS

The IFQ online application requires the Adobe Flash Player browser plug-in, which may already be installed on your computer. Your web browser (Internet Explorer, Mac Safari, Firefox, etc.) will prompt you if you need to install or upgrade the Flash plug-in. You can download it from the Adobe website at <http://get.adobe.com/flashplayer/>.

[Appendix B](#) shows the prompt to install Adobe Flash Player if you attempt to run the IFQ application without the Flash application.

Supported Web Browsers

Platform	Browser
Windows	Internet Explorer , Firefox, Chrome, Safari, Opera, AOL
Macintosh - OS X	Safari, Firefox, Chrome, Opera, AOL Desktop
Linux	Firefox, Chrome, SeaMonkey

If you have any questions regarding Flash, go to the [Adobe Flash Player](#) website for a complete list of system requirements.

Groundfish Trawl Rationalization Catch Share Program

We've approved new catch share measures for the Pacific Coast Groundfish Fishery Management Plan (FMP). Amendment 20 describes trawl rationalization and Amendment 21 specifies intersector allocations. The new regulations establish formal allocations for limited entry trawl participants and procedures for initial permit issuance, endorsements, and quota shares. These regulations should increase net economic benefit, create individual economic stability, provide full utilization of the trawl sector allocation, consider environmental impacts and achieve individual accountability of catch and bycatch.

IFQ DATA DISPLAYS

Quota share and vessel account data are generally displayed in tables. A scroll bar appears a table's right side when all data does not fit within the table length. Click and drag the scroll bar button to view overflow rows. Some web browsers support additional user adjustments:

- **Sort a column:** Click the column header. Clicking it again reverses the sort.
- **Move a column:** Click a column, and drag it left or right.

Some PC versions/browsers support adjusting **column width** by clicking and dragging the divider between headings.

The screenshot shows a table with five columns: IFQ Species, Available Pounds, Transfer Pounds, Cost/lb, and Cost per Category. The 'Available Pounds' column is sorted in descending order, indicated by a '1' and a downward arrow. A callout bubble points to the 'Available Pounds' header with the text: 'Click on column header to sort table. Click again to reverse sort.' Another callout bubble points to the scroll bar on the right side of the table with the text: 'Click & drag scroll bar button to view overflow rows.'

QS INITIATE TRANSFERS

1. Select the **IFQ Species** and enter the amount to be transferred in the **Transfer QP** column. If you are selling QP on a price/lb. basis, enter this value in the **Price/Lb.** column. The **Value = Price x Pounds** column automatically calculates the value of the species transfer.

2. Select the type of transaction (**Cash Sale, Barter, Cash and Barter, Self-Trade,** or **Other**) by selecting one of the radio buttons below this box.

If you are receiving something in trade for the transferred QP (e.g., QP of other species), select **Barter**, and describe in detail the items you are receiving in the **List in Detail All Non-Monetary Compensation for the Transfer** box. If this is an internal personal or company trade, select **Self Trade**. If this is some other type of transfer (e.g., a gift), select **Other**.

3. Enter the total monetary compensation you are receiving for the QP transferred in the **Total Monetary Compensation** box.

Note: If you are not receiving any monetary compensation for the transfer, you must still enter 0.

1. Select the **IFQ Species** and enter the amount to be transferred in the **Transfer QP** column. If you are selling QP on a price/lb. basis, enter this value in the **Price/Lb.** column. The **Value = Price x Pounds** column automatically calculates the value of the species transfer.

2. Select the type of transaction (**Cash Sale, Barter, Cash and Barter, Self-Trade, or Other**) by selecting one of the radio buttons below this box.

If you are receiving something in trade for the transferred QP (e.g., QP of other species), select **Barter**, and describe in detail the items you are receiving in the **List in Detail All Non-Monetary Compensation for the Transfer** box. If this is an internal personal or company trade, select **Self Trade**. If this is some other type of transfer (e.g., a gift), select **Other**.

3. Enter the total monetary compensation you are receiving for the QP transferred in the **Total Monetary Compensation** box.

Note: If you are not receiving any monetary compensation for the transfer, you must still enter 0.

APPENDIX A: 2012 SHOREBASED TRAWL VESSEL LIMITS

The interim 2012 Shorebased Trawl Vessel Limits are listed below. Note these numbers are subject to change; to find the current allocations, check the following URL:

INTERIM 2012 SHOREBASED TRAWL VESSEL LIMITS

12/19/2011

Below is a table showing the shorebased trawl vessel limits for IFQ species in pounds based on the Shorebased IFQ Program allocation for 2012 (76 FR 77415, December 13, 2011 and 660.140(d)(1)(ii)(D)) and the vessel limits specified at 50 CFR 660.140(e)(4). These values are used to calculate the amount of QP that can be transferred to a vessel account. Values for Pacific whiting and Pacific halibut are considered "interim" until final amounts are announced in the spring of 2012. Values for all other species in 2012 are not expected to change.

The **Annual QP Limit** is the total amount of QP (used, unused available, and pending outgoing transfers) that may be registered to a single vessel during the year. It applies to the sum of your catch to date (landings + discards), available QP balance, and pending outgoing transfers, which is displayed in the year to date column (for annual vessel limit calculation) on your vessel account summary page. The Non-whiting Groundfish Species Annual QP Limit is an overall limit applying to the sum of every IFQ species (excluding Pacific whiting and Pacific halibut).

The **Daily QP Limit** is the total amount of unused QP (available QP balance plus pending outgoing transfers) that may be registered to a vessel at any time.
