Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

SUBCHAPTER B—HUNTING AND POSSESSION OF WILDLIFE

PART 17—CONSERVATION OF ENDANGERED SPECIES AND OTHER FISH OR WILDLIFE

List of Endangered Foreign Fish and Wildlife

By notice of proposed rule making published in the FEDERAL REGISTER on July 30, 1970 (35 F.R. 12222–12225), notice was given that it was proposed to amend appendix A to Part 17 of Title 50 CFR by adding additional names to the list of foreign endangered species.

Interested persons were invited to submit their views, data, or arguments regarding the proposed amendment to the Director, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240, within 30 days following the date of the publication of the notice. All relevant matters presented have been considered and the proposal is adopted as published, except that the following mammals are deleted from the list as it was proposed:

Common name	Scientific name	Where found
Spider monkey	*Ateles geoffroyi geoffroyi*	Guatemala
Spider monkey	*Ateles geoffroyi vellerosus*	Costa Rica
Kafuo lechwe	*Kobus leche kafuensis*	Zambia

For good cause found in that 30 days were provided to receive public comment on said proposal which has in fact been available for review for more than 80 days, and after continuing consultation thereon, it is determined that further notice and public procedure thereon are impracticable, unnecessary, and contrary to the public interest and this amendment shall become effective upon publication in the FEDERAL REGISTER.

Accordingly, Appendix A of 50 CFR 17 as amended reads as follows:

U.S. List of Endangered Foreign Fish and Wildlife

The list of endangered foreign fish and wildlife has been compiled from data supplied by international conservation organizations, foreign fish and wildlife agencies, individual scientists, and trade sources. If a candidate species is not listed, it may be because it is not endangered throughout its range or because there is insufficient evidence to warrant its inclusion on the list at this time. The list is under continual review. Factual data are welcome and should be submitted. The "Where found" column is a general guide to the native countries or regions where the named animals are found. It is not intended to be definitive. The use of a trinomial (third name) in the Scientific Name indicates there are one or more subspecies of the animal which are not endangered.
