NMFS-SEA-11-21
 FOR IMMEDIATE RELEASE
 December 19, 2011

PACIFIC COAST GROUND FISH FISHERY Changes to commercial and recreational fishery management measures

The National Marine Fisheries Service (NMFS) announces changes to commercial and recreational fishery management measures for the Pacific Coast groundfish fishery off Washington, Oregon, and California, **effective January 1, 2012.**

- (1) 47°31.70' N. lat., 124°45.00' W. long.;
- (2) 46°38.17' N. lat., 124°30.00' W. long.;
- (3) 46°38.17' N. lat., 124°21.00' W. long.; and
- (4) 46°25.00' N. lat., 124°21.00' W. long.

The Pacific Fishery Management Council (Council) recommended changes to management measures at their November 2-7 meeting, 2011 meeting in San Mateo, CA. Changes to management measures are being implemented in a *Federal Register* notice that will become effective on January 1, 2012. These changes are described in this public notice.

Recreational Fishery

Washington State Lingcod Fishing Restricted Area Marine Area 1 and 2

Due bycatch of yelloweye rockfish and canary rockfish during 2011 from recreational targeting of lingcod, Washington State requested 2012 federal regulations to conform to the state's emergency rule to close a portion of marine areas 1 and 2 to recreational lingcod fishing.

Therefore, in order to ensure that the recreational harvest guidelines for yelloweye and canary rockfish are not exceeded in 2012 and beyond, the Council recommended, and NMFS is implementing, a lingcod recreational fishery area closure as follows: lingcod fishing is prohibited year round, except in Marine Area 2 on days when the Pacific halibut fishery is open, in the area seaward (West) of a straight line connecting all of the following points in the order stated:

Commercial Fishery

Rockfish Conservation Areas

Vessels Using Groundfish Trawl Gear

The Council and NMFS considered an industry request to shift the seaward boundary of the trawl RCA shoreward to open some shallower areas for harvesting petrale. The potential risks and benefits were weighed of opening some shallower areas that

are currently closed by the trawl RCA where the fleet may have higher encounters with darkblotched rockfish, Pacific ocean perch, widow rockfish and yelloweye rockfish. However, there has been low catch of these species in 2011 and this change to the RCA structure would continue to give fishers additional chances to demonstrate the benefits of individual accountability that they have in the trawl rationalization program.

Therefore, the Council recommended and NMFS is implementing a **shift in the seaward boundary of the trawl RCA for the area from 48°10' N. lat. (Cape Alava) to 45°46' N. lat. (Cape Falcon) by shifting the seaward boundary of the trawl RCA from the 200-fm line to the 150-fm line**, beginning on March 1 through April 30 (period 2). The RCA boundary lines are defined by latitude and longitude coordinates at 50 CFR 660.71-74, and are available for download on the NMFS NWR website.

Visit the NMFS Northwest Region website for current groundfish management regulations, VMS information, and RCA boundary coordinates.

Limited Entry Fixed Gear and Open Access Sablefish Daily Trip Limit (DTL) Fisheries

For complete regulations governing the limited entry fixed gear groundfish fishery, please see Title 50 CFR Part 660, subpart E. Current trip limit tables, Tables 2 (North and South), are included at the end of this public notice.

For complete regulations governing the open access groundfish fishery, please see Title 50 CFR Part 660, subpart F. The current trip limit tables, Table 3 (North and South) to subpart F, are included at the end of this public notice.

The Council considered the most recently available 2011 fishery data in order to develop appropriate and stable trip limits for each of these fisheries for 2012 such that catch of sablefish does not exceed the 2012 harvest specifications, and so that overfishing does not occur.

Limited Entry Fixed Gear Sablefish DTL Fishery North of 36° N. Lat.

Therefore, the Council recommended and NMFS is implementing the following trip limits for 2012, which are anticipated to achieve, but not exceed the fishery harvest guideline for sablefish in 2012:

- **Limited Entry Fixed Gear, North of 36° N. lat.**, to “**1,300 lb per week, not to exceed 5,000 lb per 2 months**” from January 1, through the end of the year.

See Table 2 (North) and Table 2 (South) to Subpart E, attached, for this change to sablefish trip limits.

Open Access Sablefish DTL Fishery North of 36° N. Lat.

Therefore, the Council recommended and NMFS is implementing the following trip limits for 2012, which are anticipated to achieve, but not exceed the fishery harvest guideline for sablefish in 2012:

- **Open Access, North of 36° N. lat.**, to “**300 lb per day, or 1 landing per week of up to 900 lb, not to exceed 1,800 lb per 2 months**” from January 1, through the end of the year.

See Table 3 (North) and Table 3 (South) to Subpart F, attached, for this change to sablefish trip limits.

Limited Entry Fixed Gear and Open Access Sablefish DTL Fisheries South of 36° N. Lat.

Therefore, the Council recommended and NMFS is implementing the following trip limits for 2012, which are anticipated to achieve, but not exceed the fishery harvest guideline for sablefish in 2012:

- **Limited Entry Fixed Gear, South of 36° N. lat.**, to “**1,800 (817 kg) lb per week**” in periods 1-6, on January 1, through the end of the year.
- **Open Access, South of 36° N. lat.**, to “**300 lb per day, or 1 landing per week of up to 1,350 lb, not to exceed 2,700 lb per 2 months**” in periods 1-6, on January 1, through the end of the year.

See Table 2 (South) to Subpart E and Table 3 (South) to Subpart F, attached, for this change to sablefish trip limits.

Limited Entry Fixed Gear and Open Access Minor Nearshore and Black Rockfish Trip Limits Between 42° N. lat. and 40°10.00' N. lat.

The Council considered the most recent limited entry fixed gear and open access nearshore fishery information, and recommended that the increased and re-structured limit that was implemented inseason during 2011, March-December (Periods 2-6), remain in place for the entire 2012 calendar year, beginning on January 1, 2012. The change allows for increased landings of black rockfish beginning in period 1, on January 1, 2012, through the end of the year.

Therefore, the Council recommended and NMFS is implementing an increase to the minor nearshore rockfish trip limit, between 42° N. lat. and 40°10' N. lat. from “6,000 lb per two months, no more than 1,200 lb of which may be species other than black or blue rockfish” to “8,500lb per two months, no more than 1,200 lb of which may be species other than black rockfish” beginning in period 1, on January 1 of 2012, through the end of the year.

See Table 2 (North) and Table 2 (South), and Table 3 (North) and Table 3 (South) attached.

Trip limit tables, effective January 1, 2012 are included at the end of this public notice.

For more information contact: NMFS Northwest Region at 206-526-6117 or visit our website at <http://www.nwr.noaa.gov>, click on “Groundfish & Halibut;”; Washington Department of Fish and Wildlife at 360-249-4628; Oregon Department of Fish and Wildlife at 541-867-4741; or the California Department of Fish and Game at 707-441-5797 (Eureka), 650-631-6789 (Belmont), 831-649-2804 (Monterey), 562-342-7111 (Los Alamitos).

Any discrepancies between this public notice and the *Federal Register* will be resolved in favor of the *Federal Register*.

Table 1 (North) to Part 660, Subpart D -- Limited Entry Trawl Rockfish Conservation Areas and Landing Allowances for non-IFQ Species and Pacific Whiting North of 40°10' N. Lat.

This table describes Rockfish Conservation Areas for vessels using groundfish trawl gear. This table describes incidental landing allowances for vessels registered to a Federal limited entry trawl permit and using groundfish trawl or groundfish non-trawl gears to harvest individual fishing quota (IFQ) species.

Other Limits and Requirements Apply -- Read § 660.10 - § 660.399 before using this table

TABLE 1 (North)

1/ The Rockfish Conservation Area is an area closed to fishing by particular gear types, bounded by lines specifically defined by latitude and longitude coordinates set out at §§ 660.71-660.74. This RCA is not defined by depth contours, and the boundary lines that define the RCA may close areas that are deeper or shallower than the depth contour. Vessels that are subject to the RCA restrictions may not fish in the RCA, or operate in the RCA for any purpose other than transiting.

2/ The "modified" fathom lines are modified to exclude certain petrale sole areas from the RCA.

3/ "Other fish" are defined at § 660.11 and include sharks (except spiny dogfish), skates (except longnose skate), ratfish, morids, grenadiers, and kelp greenling.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

Effective January 1, 2012

Table 1 (South) to Part 660, Subpart D -- Limited Entry Trawl Rockfish Conservation Areas and Landing Allowances for non-IFQ Species and Pacific Whiting South of 40°10' N. Lat.

This table describes Rockfish Conservation Areas for vessels using groundfish trawl gear. This table describes incidental landing allowances for vessels registered to a Federal limited entry trawl permit and using groundfish trawl or groundfish non-trawl gears to harvest individual fishing quota (IFQ) species.

26 Other fish^{5/}	Unlimited						

TABLE 2 (North)

1/ "Other flatfish" are defined at § 660.11 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.
 2/ Bocaccio, chilipepper and cowcod are included in the trip limits for minor shelf rockfish and splittnose rockfish is included in the trip limits for minor slope rockfish.

3/ For black rockfish north of Cape Alava (48°09.50' N. lat.), and between Destruction Is. (47°40' N. lat.) and Leadbetter Pnt. (46°38.17' N. lat.), there is an additional limit of 100 lb or 30 percent by weight of all fish on board, whichever is greater, per vessel, per fishing trip.

4/ The minimum size limit for lingcod is 22 inches (56 cm) total length North of 42° N. lat. and 24 inches (61 cm) total length South of 42° N. lat.

5/ "Other fish" are defined at § 660.11 and include sharks (except spiny dogfish), skates (except longnose skates), ratfish, morids, grenadiers, and kelp greenling. Cabezon and longnose skate are included in the trip limits for "other fish."

6/ The Rockfish Conservation Area is an area closed to fishing by particular gear types, bounded by lines specifically defined by latitude and longitude coordinates set out at §§ 660.71-660.74. This RCA is not defined by depth contours (with the exception of the 20-fm depth contour boundary south of 42° N. lat.), and the boundary lines that define the RCA may close areas that are deeper or shallower than the depth contour. Vessels that are subject to RCA restrictions may not fish in the RCA, or operate in the RCA for any purpose other than transiting.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

TABLE 2 (South)

1/ "Other flatfish" are defined at § 660.11 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.

2/ POP is included in the trip limits for minor slope rockfish. Yellowtail is included in the trip limits for minor shelf rockfish. Bronzespotted rockfish have a species specific trip limit.

3/ The commercial minimum size limit for lingcod is 24 inches (61 cm) total length South of 42° N. lat.

4/ "Other fish" are defined at § 660.11 and include sharks (except spiny dogfish), skates (except longnose skates), ratfish, morids, grenadiers, and kelp greenling. Cabezon and longnose skate are included in the trip limits for "other fish."

5/ The Rockfish Conservation Area is an area closed to fishing by particular gear types, bounded by lines specifically defined by latitude and longitude coordinates set out at §§ 660.71-660.74. This RCA is not defined by depth contours (with the exception of the 20-fm depth contour boundary south of 42° N. lat.), and the boundary lines that define the RCA may close areas that are deeper or shallower than the depth contour. Vessels that are subject to RCA restrictions may not fish in the RCA, or operate in the RCA for any purpose other than transiting.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

Table 3 (North) to Part 660, Subpart F -- Non-Trawl Rockfish Conservation Areas and Trip Limits for Open Access Gears North of 40°10' N. Lat.

Other Limits and Requirements Apply -- Read § 660.10 - § 660.399 before using this table

	JAN-FEB	MAR-APR	MAY-JUN	JUL-AUG	SEP-OCT	NOV-DEC
Rockfish Conservation Area (RCA)^{6/}:						
1 North of 46°16' N. lat.	shoreline - 100 fm line ^{6/}					
2 46°16' N. lat. - 43°00' N. lat.	30 fm line ^{6/} - 100 fm line ^{6/}					
3 43°00' N. lat. - 42°00' N. lat.	20 fm line ^{6/} - 100 fm line ^{6/}					
4 42°00' N. lat. - 40°10' N. lat.	20 fm depth contour - 100 fm line ^{6/}					
See § 660.60, § 660.330, and § 660.333 for Additional Gear, Trip Limit, and Conservation Area Requirements and Restrictions. See §§ 660.70-660.74 and §§ 660.76-660.79 for Conservation Area Descriptions and Coordinates (including RCAs, YRCA, CCAs, Farallon Islands, Cordell Banks, and EFHCAs).						
State trip limits and seasons may be more restrictive than federal trip limits, particularly in waters off Oregon and California.						
5 Minor slope rockfish^{1/} & Darkblotched rockfish	Per trip, no more than 25% of weight of the sablefish landed					
6 Pacific ocean perch	100 lb/ month					
7 Sablefish	300 lb/ day, or 1 landing per week of up to 900 lb, not to exceed 1,800 lb/ 2 months					
8 Thornyheads	CLOSED					
9 Dover sole	3,000 lb/month, no more than 300 lb of which may be species other than Pacific sanddabs. South of 42° N. lat., when fishing for "other flatfish," vessels using hook-and-line gear with no more than 12 hooks per line, using hooks no larger than "Number 2" hooks, which measure 11 mm (0.44 inches) point to shank, and up to two 1 lb (0.45 kg) weights per line are not subject to the RCAs.					
10 Arrowtooth flounder						
11 Petrale sole						
12 English sole						
13 Starry flounder						
14 Other flatfish^{2/}	300 lb/ month					
15 Whiting	200 lb/ month					
16 Minor shelf rockfish^{1/}, Shortbelly, Widow, & Yellowtail rockfish	CLOSED					
17 Canary rockfish	CLOSED					
18 Yelloweye rockfish	CLOSED					
19 Minor nearshore rockfish & Black rockfish	5,000 lb/ 2 months, no more than 1,200 lb of which may be species other than black or blue rockfish ^{3/}					
20 North of 42° N. lat.						
21 42° - 40°10' N. lat.	8,500 lb/ 2 months, of which no more than 1,200 lb may be species other than black rockfish ^{3/}					
22 Lingcod^{4/}	CLOSED	400 lb/ month				CLOSED
23 Pacific cod	1,000 lb/ 2 months					
24 Spiny dogfish	200,000 lb/ 2 months	150,000 lb/ 2 months	100,000 lb/ 2 months			
25 Other Fish^{5/}	Unlimited					

TABLE 3 (North)

Table 3 (North). Continued

		JAN-FEB	MAR-APR	MAY-JUN	JUL-AUG	SEP-OCT	NOV-DEC	TABLE 3 (North) cont'	
26	SALMON TROLL (subject to RCAs when retaining all species of groundfish except for yellowtail rockfish and lingcod, as described below)								
27	North	Salmon trollers may retain and land up to 1 lb of yellowtail rockfish for every 2 lbs of salmon landed, with a cumulative limit of 200 lb/month, both within and outside of the RCA. This limit is within the 200 lb per month combined limit for minor shelf rockfish, widow rockfish and yellowtail rockfish, and not in addition to that limit. Salmon trollers may retain and land up to 1 lingcod per 15 Chinook per trip, plus 1 lingcod per trip, up to a trip limit of 10 lingcod, on a trip where any fishing occurs within the RCA. This limit only applies during times when lingcod retention is allowed, and is not "CLOSED." This limit is within the per month limit for lingcod described in the table above, and not in addition to that limit. All groundfish species are subject to the open access limits, seasons, size limits and RCA restrictions listed in the table above, unless otherwise stated here.							
28	PINK SHRIMP NON-GROUNDFISH TRAWL (not subject to RCAs)								
29	North	Effective April 1 - October 31: Groundfish: 500 lb/day, multiplied by the number of days of the trip, not to exceed 1,500 lb/trip. The following sublimits also apply and are counted toward the overall 500 lb/day and 1,500 lb/trip groundfish limits: lingcod 300 lb/month (minimum 24 inch size limit); sablefish 2,000 lb/month; canary, thornyheads and yelloweye rockfish are PROHIBITED. All other groundfish species taken are managed under the overall 500 lb/day and 1,500 lb/trip groundfish limits. Landings of these species count toward the per day and per trip groundfish limits and do not have species-specific limits. The amount of groundfish landed may not exceed the amount of pink shrimp landed.							

1/ Bocaccio, chilipepper and cowcod rockfishes are included in the trip limits for minor shelf rockfish.

Splitnose rockfish is included in the trip limits for minor slope rockfish.

2/ "Other flatfish" are defined at § 660.11 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.

3/ For black rockfish north of Cape Alava (48°09.50' N. lat.), and between Destruction Is. (47°40' N. lat.) and Leadbetter Pnt. (46°38.17' N. lat.), there is an additional limit of 100 lbs or 30 percent by weight of all fish on board, whichever is greater, per vessel, per fishing trip.

4/ The minimum size limit for lingcod is 22 inches (56 cm) total length North of 42° N. lat. and 24 inches (61 cm) total length South of 42° N. lat.

4/ "Other fish" are defined at § 660.11 and include sharks (except spiny dogfish), skates (except longnose skates), ratfish, morids, grenadiers, and kelp greenling. Cabezon and longnose skate are included in the trip limits for "other fish."

6/ The Rockfish Conservation Area is an area closed to fishing by particular gear types, bounded by lines specifically defined by latitude and longitude coordinates set out at §§ 660.71-660.74. This RCA is not defined by depth contours (with the exception of the 20-fm depth contour boundary south of 42° N. lat.), and the boundary lines that define the RCA may close areas that are deeper or shallower than the depth contour. Vessels that are subject to RCA restrictions may not fish in the RCA, or operate in the RCA for any purpose other than transiting.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.

39	Other Fish^{4/}	Unlimited				
40	RIDGEBACK PRAWN AND, SOUTH OF 38°57.50' N. LAT., CA HALIBUT AND SEA CUCUMBER NON-GROUNDFISH TRAWL					
41	NON-GROUNDFISH TRAWL Rockfish Conservation Area (RCA) for CA Halibut, Sea Cucumber & Ridgeback Prawn:					
42	40° 10' - 38° N. lat.	100 fm line - 200 fm line ^{6/}	100 fm line ^{5/} - 150 fm line ^{5/}			100 fm line ^{5/} - 200 fm line ^{5/6/}
43	38° - 34° 27' N. lat.	100 fm line ^{5/} - 150 fm line ^{5/}				
44	South of 34° 27' N. lat.	100 fm line ^{5/} - 150 fm line ^{5/} along the mainland coast; shoreline - 150 fm line ^{5/} around islands				
45	<p>Groundfish: 300 lb/trip. Species-specific limits described in the table above also apply and are counted toward the 300 lb groundfish per trip limit. The amount of groundfish landed may not exceed the amount of target species landed, except that the amount of spiny dogfish landed may exceed the amount of target species landed. Spiny dogfish are limited by the 300 lb/trip overall groundfish limit. The daily trip limits for sablefish coastwide and thornyheads south of Pt. Conception and the overall groundfish "per trip" limit may not be multiplied by the number of days of the trip. Vessels participating in the California halibut fishery south of 38°57.50' N. lat. are allowed to (1) land up to 100 lb/day of groundfish without the ratio requirement, provided that at least one California halibut is landed and (2) land up to 3,000 lb/month of flatfish, no more than 300 lb of which may be species other than Pacific sanddabs, sand sole, starry flounder, rock sole, curlfin sole, or California scorpionfish (California scorpionfish is also subject to the trip limits and closures in line 31).</p>					
46	PINK SHRIMP NON-GROUNDFISH TRAWL GEAR (not subject to RCAs)					
47	South	<p>Effective April 1 - October 31: Groundfish: 500 lb/day, multiplied by the number of days of the trip, not to exceed 1,500 lb/trip. The following sublimits also apply and are counted toward the overall 500 lb/day and 1,500 lb/trip groundfish limits: lingcod 300 lb/ month (minimum 24 inch size limit); sablefish 2,000 lb/ month; canary, thornyheads and yelloweye rockfish are PROHIBITED. All other groundfish species taken are managed under the overall 500 lb/day and 1,500 lb/trip groundfish limits. Landings of all groundfish species count toward the per day, per trip or other species-specific sublimits described here and the species-specific limits described in the table above do not apply. The amount of groundfish landed may not exceed the amount of pink shrimp landed.</p>				

TABLE 3 (South) cont

1/ Yellowtail rockfish is included in the trip limits for minor shelf rockfish. POP is included in the trip limits for minor slope rockfish. Bronzespotted rockfish have a species specific trip limit.

2/ "Other flatfish" are defined at § 660.11 and include butter sole, curlfin sole, flathead sole, Pacific sanddab, rex sole, rock sole, and sand sole.

3/ The commercial minimum size limit for lingcod is 24 inches (61 cm) total length South of 42° N. lat.

4/ "Other fish" are defined at § 660.11 and include sharks (except spiny dogfish), skates (including longnose skates), ratfish, morids, grenadiers, and kelp greenling.

5/ The Rockfish Conservation Area is an area closed to fishing by particular gear types, bounded by lines specifically defined by latitude and longitude coordinates set out at §§ 660.71-660.74. This RCA is not defined by depth contours (with the exception of the 20-fm depth contour boundary south of 42° N. lat.), and the boundary lines that define the RCA may close areas that are deeper or shallower than the depth contour. Vessels that are subject to RCA restrictions may not fish in the RCA, or operate in the RCA for any purpose other than transiting.

To convert pounds to kilograms, divide by 2.20462, the number of pounds in one kilogram.
