PACIFIC COAST GROUND FISH FISHERY

A proposed rule, the Program Improvement and Enhancement Rule (PIE 2) is available for public comment

The National Marine Fisheries Service (NMFS) announces the publication of a proposed rule, the Program Improvement and Enhancement Rule (PIE 2), in the Federal Register that proposes revisions to the Pacific coast groundfish trawl rationalization program (program), a catch share program, and includes clarifications of regulations that affect the limited entry trawl and limited entry fixed gear sectors managed under the Pacific Coast Groundfish Fishery Management Plan (FMP).

This proposed action would include the following, by category of a) implementation of original program, b) increasing flexibility or efficiency, and c) minor revisions/clarifications:

(A) Implementation of Original Program

1. Establish quota share (QS) permit application and QS transfer regulations,

(B) Increasing Flexibility or Efficiency

2. Clarify exceptions for lenders from control rules,
3. Change the opt-out requirement for quota pound (QP) deficits,
4. Eliminate double filing of co-op reports (November and March),
5. Revise first receiver site license requirements (FRSL), including site inspection and expiration date,
6. Remove end of the year ban on QP transfers between vessel accounts,

(C) Minor Revisions/Clarifications

7. Remove the term “permit holder” from groundfish regulations and replace with “vessel owner”, “permit owner”, or “owner of a vessel registered to a limited entry permit” as applicable,
8. Revise the process for a permit holder (vessel owner) to change their vessel ownership,
9. Clarify that the processor obligation may be to more than one mothership (MS) permit,
10. Revise the mothership catcher vessel (MS/CV) endorsement restriction given severability,
11. Clarify sorting requirement for full retention so “predominant species” means only one species,
12. Clarify the accumulation limits calculation for compliance with the annual QP vessel limit in vessel accounts,
13. Add a prohibition against failing to establish a new vessel account, following a change in vessel ownership, prior to fishing in the Shorebased IFQ program, and
14. Add a prohibition against landing fish from an IFQ trip to a first receiver without a valid FRSL.

The Federal Register notice for this proposed rule published on July 19, 2013, and is available

on the NMFS Northwest Region website at:
