

NMFS California Set Gillnet Observer Program
Observed Catch
January 1, 2007, through December 31, 2007

This table summarizes the total catch and final disposition of all species observed caught in the California set gillnet fishery during calendar year 2007.

Data were collected at sea by contract observers, and represent a total of 248 sets. Estimated total fishing effort for the season is 1,387 sets.
