

and evaluation tasks are specified in the FMEP to assess the abundance of steelhead, determine fishery effort and catch of steelhead, and angler compliance. A comprehensive review of the FMEP to evaluate whether the fisheries and listed steelhead populations are performing as expected will be done through regular creel surveys and angler contacts.

ODFW has submitted to NMFS an FMEP (*Summer Steelhead and Trout Sport Fisheries in Grande Ronde Basin, Imnaha Basin, and Snake River*) for recreational steelhead fisheries in the Grande Ronde, Imnaha, and Snake River Basins. The objective of this FMEP is to harvest known, hatchery-origin steelhead in a manner that does not jeopardize the survival and recovery of the SR steelhead ESU. Only adult hatchery-origin steelhead that are adipose fin clipped may be retained. Impact levels to listed steelhead populations in the ESU due to catch and release are specified in the FMEP. Population viability analyses and risk assessments in the FMEP indicate the extinction risk for listed steelhead under the proposed fishery impact levels to be less than 0.1 percent. A variety of monitoring and evaluation tasks are specified in the FMEP to assess the abundance of steelhead, determine fishery effort and catch of steelhead, and angler compliance. A comprehensive review of the FMEP to evaluate whether the fisheries and listed steelhead populations are performing as expected will be done annually.

ODFW has provided NMFS a draft of the *Conservation Assessment of Steelhead Populations in Oregon* (Assessment) as part of the FMEP submittal. The Assessment provides the population viability analysis and risk assessment developed for ODFW's FMEPs. This Assessment is also available for review and comment.

IDFG has submitted to NMFS an FMEP (*The State of Idaho Resident Fish Species Fishing Program*) for inland, resident, recreational fisheries potentially affecting listed adult and juvenile SR steelhead. This includes fisheries occurring throughout Idaho including the Clearwater and Salmon River Basins. The objective of the FMEP is to provide sufficient sport fishing opportunities in a manner that does not jeopardize the survival and recovery of the ESU. The FMEP focuses mainly on impacts to juvenile steelhead. Impacts can result from the fisheries themselves and the potential impacts from the resident fish stocking program. Impact levels to listed steelhead populations in the ESU due to catch and release are specified in the FMEP. Population

viability analyses and risk assessments in the FMEP indicate the extinction risk for listed steelhead under the proposed fishery impact levels to be low. A variety of monitoring and evaluation tasks are specified in the FMEP to assess the abundance of steelhead, determine fishery effort and catch of steelhead, and angler compliance. A comprehensive review of the FMEP to evaluate whether the fisheries and listed steelhead populations are performing as expected will be done through regular creel surveys and angler contacts.

As specified in the July 10, 2000 ESA 4(d) rule for salmon and steelhead (65 FR 42422), NMFS may approve an FMEP if it meets criteria set forth in § 223.203 (b)(4)(i)(A) through (I). Prior to final approval of an FMEP, NMFS must publish notification announcing its availability for public review and comment.

#### Authority

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) rule (65 FR 42422, July 10, 2000) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. The rule further provides that the prohibitions of paragraph (a) of the rule do not apply to activities associated with fishery harvest provided that an FMEP has been approved by NMFS to be in accordance with the salmon and steelhead ESA 4(d) rule (65 FR 42422, July 10, 2000).

Dated: May 1, 2001.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 042501F]

#### Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability and request for comment.

**SUMMARY:** Notice is hereby given that the Oregon Department of Fish and Wildlife (ODFW) has submitted two Fisheries Management and Evaluation Plans (FMEP) pursuant to the protective regulations promulgated for Lower Columbia River (LCR) steelhead under the Endangered Species Act (ESA). The FMEPs specify the future management of inland recreational fisheries potentially affecting the LCR steelhead. This document serves to notify the public of the availability of the FMEPs for review and comment before a final approval or disapproval is made by NMFS.

**DATES:** Written comments on the draft FMEPs must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific standard time on June 4, 2001.

**ADDRESSES:** Written comments and requests for copies of the draft FMEPs should be addressed to Richard Turner, Sustainable Fisheries Division, Hatchery and Inland Fisheries Branch, 525 N.E. Oregon Street, Suite 510, Portland, OR 97232 or faxed to 503-872-2737. The documents are also available on the Internet at <http://www.nwr.noaa.gov/>. Comments will not be accepted if submitted via e-mail or the Internet.

**FOR FURTHER INFORMATION CONTACT:** Richard Turner, Portland, OR at phone number 503-736-4737 or e-mail: [rich.turner@noaa.gov](mailto:rich.turner@noaa.gov).

**SUPPLEMENTARY INFORMATION:** This notice is relevant to the Lower Columbia River Steelhead (*Oncorhynchus mykiss*) Evolutionarily Significant Unit (ESU).

#### Background

ODFW has submitted to NMFS two FMEPs: (1) *Hood River Basin Steelhead, Trout and Warmwater Fisheries*, and (2) *Lower Columbia River ESU Steelhead, Trout, Sturgeon and Warmwater Fisheries*, for inland recreational fisheries potentially affecting listed adult and juvenile LCR steelhead. These include fisheries occurring in the Hood River; the lower Willamette River and tributaries, including the Clackamas River; the Columbia River tributaries from below the Hood River downstream to the North end of Sauvie Island (near the town of St. Helens, OR); and the Sandy River. The objective of these FMEPs is to harvest known, hatchery-origin steelhead and other fish species in a manner that does not jeopardize the survival and recovery of the LCR steelhead ESU. All fisheries included in these FMEPs will be managed such that only hatchery-origin steelhead that are adipose fin clipped may be retained. Impacts levels to listed LCR steelhead are specified in the FMEPs. Population

viability analysis and risk assessments in the FMEPs indicate the extinction risk for listed steelhead under the proposed fishery impact levels to be low. A variety of monitoring and evaluation tasks are specified in the FMEPs to assess the abundance of steelhead, determine fishery effort and catch of steelhead and angler compliance. A review of compliance with the provisions of the FMEP will be conducted by ODFW annually and a comprehensive review to evaluate the effectiveness of the FMEPs will occur at a minimum every 5 years.

ODFW has provided NMFS a draft of the *Conservation Assessment of Steelhead Populations in Oregon* (Assessment) as part of the FMEP submittal. The Assessment provides the population viability analysis and risk assessment developed for ODFW's FMEPs. This Assessment is also available for review and comment.

As specified in the July 10, 2000 ESA 4(d) rule for salmon and steelhead (65 FR 42422), NMFS may approve an FMEP if it meets criteria set forth in § 223.203 (b)(4)(i)(A) through (I). Prior to final approval of an FMEP, NMFS must publish notification announcing its availability for public review and comment.

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Adjustment of Import Limits for Certain Cotton, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textiles and Textile Products Produced or Manufactured in Sri Lanka

April 30, 2001.

**AGENCY:** Committee for the Implementation of Textile Agreements (CITA).

**ACTION:** Issuing a directive to the Commissioner of Customs adjusting limits.

**EFFECTIVE DATE:** May 4, 2001.

**FOR FURTHER INFORMATION CONTACT:** Roy Unger, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota reopenings, refer to the Office of Textiles and Apparel website at <http://www.otexa.ita.doc.gov>.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limit for Categories 347/348/847 is being increased for carryforward, and for swing and special shift from Category 359-C/659-C and 647/648.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 65 FR 82328, published on December 28, 2000). Also see 65 FR 69503, published on November 17, 2000.

**D. Michael Hutchinson,**

*Acting Chairman, Committee for the  
Implementation of Textile Agreements.*

**Committee for the Implementation of Textile Agreements**

April 30, 2001.

Commissioner of Customs,  
*Department of the Treasury, Washington, DC  
20229.*

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 13, 2000, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool,

man-made fiber, silk blend and other vegetable fiber textiles and textile products, produced or manufactured in Sri Lanka and exported during the twelve-month period which began on January 1, 2001 and extends through December 31, 2001.

Effective on May 4, 2001, you are directed to adjust the limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit <sup>1</sup>
347/348/847	2,129,138 dozen.
359-C/659-C <sup>2</sup>	1,282,727 kilograms.
647/648	1,209,265 dozen.

<sup>1</sup> The limits have not been adjusted to account for any imports exported after December 31, 2000.

<sup>2</sup> Category 359-C: only HTS numbers 6103.42.2025, 6103.49.8034, 6104.62.1020, 6104.69.8010, 6114.20.0048, 6114.20.0052, 6203.42.2010, 6203.42.2090, 6204.62.2010, 6211.32.0010, 6211.32.0025 and 6211.42.0010; Category 659-C: only HTS numbers 6103.23.0055, 6103.43.2020, 6103.43.2025, 6103.49.2000, 6103.49.8038, 6104.63.1020, 6104.63.1030, 6104.69.1000, 6104.69.8014, 6114.30.3044, 6114.30.3054, 6203.43.2010, 6203.43.2090, 6203.49.1090, 6204.63.1510, 6204.69.1010, 6210.10.9010, 6211.33.0010, 6211.33.0017 and 6211.43.0010.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,  
*Acting Chairman, Committee for the  
Implementation of Textile Agreements.*

## DEPARTMENT OF DEFENSE

### Department of the Army

#### Final Programmatic Environmental Impact Statement (FPEIS) on Transportable Treatment Systems for Non-Stockpile Chemical Warfare Materiel

**AGENCY:** Department of the Army, DoD.

**ACTION:** Notice of availability.

**SUMMARY:** This FPEIS has been prepared by the Army in compliance with the National Environmental Policy Act of 1969, regulations of the President's Council on Environmental Quality (40 CFR 1500-1508), and Army Regulation 200-2. As the Executive Agent for the DoD, the Army is responsible for destroying that portion of the nation's chemical warfare materiel referred to as "non-stockpile" chemical warfare materiel. This non-stockpile chemical warfare materiel must be destroyed in order to protect human health and
