will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in these or any previous reviews conducted by the Department, the cash deposit rate will be the “all others” rate, which is 12.61 percent.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under section 351.402(f)(2) of the Department’s regulations to file a certificate regarding the reimbursement of antidumping duties or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of the antidumping duties or countervailing duties occurred and the subsequent assessment of double antidumping duties or countervailing duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with section 351.305 of the Department’s regulations, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation that is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 771(l) of the Act.

Joseph A. Spetrini,
Acting Assistant Secretary for Import Administration.

Folding Metal Tables and Chairs From the People’s Republic of China: Notice of Extension of Time Limit for Preliminary Results in the Second Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: Effective Date: February 15, 2005.

Extension of Time Limit

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), the Department of Commerce (“the Department”) shall make a preliminary determination in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period. The Department finds that it is not practicable to complete the preliminary results in the administrative review of folding metal tables and chairs from the PRC within this time limit. Specifically, due to resource constraints and the number of issues in this review, we find that additional time is needed in order to complete these preliminary results. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time for completion of the preliminary results of this review until June 30, 2005.

Dated: February 9, 2005.
Barbara E. Tillman,
Acting Deputy Assistant Secretary for Import Administration.

Receipt of An Application for Direct Take Permit 1520

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce

ACTION: Notice of availability for public comment.

SUMMARY: NMFS has received an application from the Confederated Tribes of the Colville Reservation (CCT) for a direct take permit pursuant to the Endangered Species Act of 1973, as amended (ESA). The duration of the proposed Permit is 5 years. NMFS is furnishing this notice in order to allow other agencies and the public an opportunity to review and comment on the document. All comments received will become part of the public record and will be available for review pursuant to the ESA.

DATES: Written comments from interested parties on the Permit application must be received at the appropriate address or fax number (see ADDRESSES) no later than 5 pm Pacific standard time on March 17, 2005.

ADDRESSES: Written comments on the application should be sent to Kristine Petersen, Salmon Recovery Division, F/NWR1, 525 NE Oregon Street, Suite 510, Portland, OR 97232 or electronically to kristine.petersen@noaa.gov. Comments may also be sent via fax to (503)872–2737. The mailbox address for providing
e-mail comments is Okanagan.nwr@noaa.gov. Include in the subject line the following document identifier: “Okanogan River monitoring”. Requests for copies of the permit application should be directed to the Salmon Recovery Division, F/NWR1, 525 NE Oregon Street, Suite 510, Portland, OR 97232. The documents are also available on the Internet at www.nwr.noaa.gov/1srd. Comments received will also be available for public inspection, by appointment, during normal business hours by calling (503) 230–5409.

FOR FURTHER INFORMATION CONTACT: Kristine Petersen, Portland, OR (ph.: (503) 230–5409, fax: (503) 872–2737, e-mail: kristine.petersen@noaa.gov).

SUPPLEMENTARY INFORMATION: Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances, to take listed species for scientific purposes or to enhance the propagation or survival of the species under section 10(a)(1)(A) of the ESA. NMFS regulations governing permits for threatened and endangered species are promulgated at 50 CFR 222.307.

Species Covered in This Notice

The following evolutionarily significant units (ESUs) are included in the Permit application:

Steelhead (Oncorhynchus mykiss): endangered, naturally produced and artificially propagated Upper Columbia River (UCR).

Application Received

On January 18, 2005, the CCT submitted an application to NMFS for an ESA section 10(a)(1)(A) permit for the take of ESA-listed anadromous fish species associated with monitoring of salmon and steelhead in the Okanagan River, a tributary of the Columbia River in Washington.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments submitted thereon to determine whether the application meets the requirements of section 10(a)(1)(A) of the ESA. If it is determined that the requirements are met, a permit will be issued to the CCT for the monitoring actions in the Okanogan River. NMFS will publish a record of its final action in the Federal Register.

Susan Pultz,
Acting Division Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Applications for scientific research permits 1513, 1519, and 1521 and a request to modify permit 1322.

SUMMARY: Notice is hereby given that NMFS has received three scientific research permit applications and one modification request relating to Pacific salmon. The proposed research is intended to increase knowledge of species listed under the Endangered Species Act (ESA) and to help guide management and conservation efforts.

DATES: Comments or requests for a public hearing on the application must be received at the appropriate address or fax number (see ADDRESSES) no later than 5 p.m. Pacific daylight-saving time on March 17, 2005.

ADDRESSES: Written comments on the application should be sent to Protected Resources Division, NMFS, F/NWO3, 525 NE Oregon Street, Suite 500, Portland, OR 97232–2737. Comments may also be sent via fax to 503–230–5435 or by e-mail to resapps.nwr@NOAA.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species and evolutionarily significant units (ESUs) are covered in this notice:

Sockeye salmon (Oncorhynchus nerka): endangered Snake River (SR).

Chinook salmon (O. tshawytscha): endangered naturally-produced and artificially propagated upper Columbia River (UCR); threatened naturally produced and artificially propagated SR spring/summer (spr/sum); threatened SR fall; threatened lower Columbia River (LCR); threatened upper Willamette River (UWR); threatened Puget Sound (PS).

Chum salmon (O. keta): threatened Columbia River (CR).

Steelhead (O. mykiss): threatened SR; threatened middle Columbia River (MCR); endangered UCR; threatened LCR; threatened UWR.

Authority

Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 et. seq) and regulations governing listed fish and wildlife permits (50 CFR 222–226). NMFS’ issues permits based on findings that such permits: (1) are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see ADDRESSES). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA.

Application Received

Permit 1322 – Modification 3

NMFS’ Northwest Fisheries Science Center (NWFSC) is asking to modify its 5-year permit to increase the annual number of listed fish taken in its research and to add take of juvenile UCR steelhead (natural and artificially propagated). The NWFSC is asking to increase its annual take of juvenile SR steelhead, LCR steelhead, MCR steelhead, UWR steelhead, and CR chum salmon while conducting research in the Columbia River estuary. The purposes of the research are to (1) determine the presence and abundance of fall and spring chinook salmon, coho salmon, and chum salmon in the estuary and lower Columbia River; (2) determine the relationship between juvenile salmon and lower Columbia River estuarine habitat; and (3) obtain information about flow change, sediment input, and habitat availability so they may develop a numerical model of the fishes’ survival. The research would benefit listed salmonids by serving as a basis for estuarine restoration and preservation plans. The NWFSC proposes to capture, handle, and release listed salmonids,
