All Others	118.53

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective orders is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act.

Dated: May 22, 2012.

Paul Piquado,

Assistant Secretary for Import Administration.

Marine Mammals; File No. 16580

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Shannon Atkinson, Ph.D., University of Alaska Fairbanks, 17101 Pt. Lena Loop Road, Juneau, AK 99801 has applied in due form for a permit to import, export, and receive marine mammal parts for scientific research.

DATES: Written, telefaxed, or email comments must be received on or before June 29, 2012.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 16580 from the list of available applications.

These documents are also available upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)427-8401; fax (301)713-0376; and Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802-1668; phone (907)586-7221; fax (907)586-7249.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301)713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on these applications would be appropriate.

FOR FURTHER INFORMATION CONTACT: Laura Morse or Jennifer Skidmore, (301)427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The objectives of the proposed research are to examine reproductive, nutritional and stress physiology, and morphology in marine mammals. The applicant is requesting to receive and export samples of marine mammals taken by Alaskan Native subsistence hunters, and receive, and import/export specimens from foreign scientists in academic, federal, and state institutions involved in legally authorized marine mammal research. The applicant requests parts for all marine mammal species under NMFS jurisdiction. Marine mammal parts will be used incidentally for educational purposes. Import/export activities would occur world-wide. No live animals would be harassed or taken, lethally or otherwise, under the requested permit. The requested duration of the permit is 5 years.

In compliance with the National Environmental Policy Act of 1969 (42

U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding a copy of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 23, 2012.

Tammy C. Adams,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of tribal harvest plan evaluation and request for comment.

SUMMARY: Notice is hereby given that the Shoshone-Bannock Tribes have submitted a Tribal Resource Management Plan (Tribal Plan) to NMFS pursuant to the limitation on take prohibitions for actions conducted under Tribal Plans promulgated under the Endangered Species Act (ESA). The Tribal Plan specifies the management of ceremonial and subsistence fisheries in the Salmon River basin in the State of Idaho that potentially affect Snake River salmon and steelhead listed as threatened under the ESA. This document serves to notify the public of the availability for comment of the proposed evaluation of the Secretary of Commerce (Secretary) as to whether implementation of the Tribal Plan will appreciably reduce the likelihood of survival and recovery of Snake River salmon and steelhead.

This notice further advises the public of the availability for review of an Environmental Assessment of the effects of the NMFS determination on the subject Tribal Plan.

DATES: Comments must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific time on June 29, 2012.

ADDRESSES: Written comments on the application should be addressed to the NMFS Salmon Management Division, 1201 NE Lloyd Boulevard, Suite 1100, Portland, OR 97232, or faxed to 503-872-2737. Comments may be submitted by email. The mailbox address for providing email comments is: TribalFisheries.nwr@noaa.gov. Include in the subject line of the email comment the following identifier: Comments on Tribal fishery plan in Idaho.

FOR FURTHER INFORMATION CONTACT: Enrique Patiño, at phone number: (206) 526-4655, or email: Enrique.Patino@noaa.gov.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

Chinook salmon (*Oncorhynchus tshawytscha*): threatened, naturally produced and artificially propagated Snake River spring/summer.

Chinook salmon (*O. tshawytscha*): threatened, naturally produced and artificially propagated Snake River fall-run.

Steelhead (*O. mykiss*): threatened, naturally produced and artificially propagated Snake River basin.

Sockeye (*O. nerka*): endangered, naturally produced and artificially propagated Snake River.

The Shoshone-Bannock Tribes have submitted to NMFS a Tribal Plan describing the management of ceremonial and subsistence fisheries in the Salmon River basin in the State of Idaho. The objective of the Tribal Plan is to harvest spring Chinook salmon in a manner that does not appreciably reduce the likelihood of survival and recovery of the ESU. Impact levels on the listed spring Chinook salmon populations in the ESU are specified by a sliding-scale harvest rate schedule based on run size and escapement needs as described in the Tribal Plan. The Tribal Plan sets maximum harvest rates for each management unit or population based on its status, and assures that those rates or objectives are not exceeded. A variety of monitoring and evaluation tasks to be conducted by the Shoshone-Bannock Tribes is specified in the Tribal Plan to assess the abundance of spring Chinook salmon and to determine fishery effort and catch. A comprehensive review of the fisheries and ESA-listed salmon and steelhead populations are performing as expected will be done within the proposed fishery season and at the end of the proposed season.

As required by the ESA 4(d) rule for Tribal Plans (65 FR 42481, July 10, 2000), the Secretary is seeking public

comment on his pending determination as to whether the Tribal Plan for fisheries in the Salmon River of Idaho by the Shoshone-Bannock Tribes would appreciably reduce the likelihood of survival and recovery of the ESA-listed Snake River salmon and steelhead.

Under section 4(d) of the ESA, the Secretary is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. NMFS has issued a final ESA 4(d) Rule for Tribal Plans adopting regulations necessary and advisable to harmonize statutory conservation requirements with tribal rights and the Federal trust responsibility to tribes (50 CFR 223.209).

This 4(d) Rule for Tribal Plans applies the prohibitions enumerated in section 9(a)(1) of the ESA. NMFS did not find it necessary and advisable to apply the take prohibitions described in section 9(a)(1)(B) and 9(a)(1)(C) to fishery harvest activities if the fisheries are managed in accordance with a Tribal Plan whose implementation has been determined by the Secretary to not appreciably reduce the likelihood of survival and recovery of the listed salmonids. As specified in the Tribal 4(d) Rule, before the Secretary makes a decision on the Tribal Plan, the public must have an opportunity to review and comment on the pending determination.

Authority

Under section 4 of the ESA, the Secretary is required to adopt such regulations as he deems necessary and advisable for the conservation of the species listed as threatened. The ESA Tribal 4(d) Rule (50 CFR 223.209) states that the ESA section 9 take prohibitions will not apply to Tribal Plans that will not appreciably reduce the likelihood of survival and recovery for the listed species.

Dated: May 23, 2012.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XA874

Marine Mammals; File No. 15240

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that a permit has been issued to NMFS Pacific Islands Fisheries Science Center (PIFSC), 2570 Dole Street, Honolulu, Hawaii 96822 (Responsible Party: Frank A. Parrish, Ph.D.) to conduct research on cetaceans.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following offices:

Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)427-8401; fax (301)713-0376; and

Pacific Islands Region, NMFS, 1601 Kapiolani Blvd., Rm 1110, Honolulu, HI 96814-4700; phone (808)944-2200; fax (808)973-2941.

FOR FURTHER INFORMATION CONTACT: Carrie Hubard or Laura Morse, (301)427-8401.

SUPPLEMENTARY INFORMATION: On December 20, 2011, notice was published in the **Federal Register** (76 FR 78890) that a request for a permit to conduct cetacean research had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 15240 authorizes the PIFSC to take 20 cetacean species, including six species listed as endangered [blue (*Balaenoptera musculus*), fin (*B. physalus*), sei (*B. borealis*), humpback (*Megaptera novaeangliae*), sperm (*Physeter macrocephalus*), and North Pacific right (*Eubalaena japonica*) whales] and one stock proposed to be listed as endangered, Hawaiian insular false killer whales (*Pseudorca crassidens*). Endangered Hawaiian monk seals [*Monachus schauinslandi*] may be harassed incidental to the cetacean research. The purpose of the research is to determine the abundance, distribution, stock structure, movement patterns, and ecological relationships of cetaceans occurring in U.S. and international waters of the Pacific Islands Region. The action area includes Hawaii, Palmyra, American Samoa,
