(1) The Enrollment Segment Fee covers the costs for TSA or its agent to enroll applicants.
(2) The Reduced Card Production/Security Threat Assessment Segment covers the costs for TSA to conduct a portion of the security threat assessment and issue a TWIC.
(d) Card Replacement Fee. The Card Replacement Fee covers the costs for TSA to replace a TWIC when a TWIC holder reports that his/her TWIC has been lost, stolen, or damaged.

(g) Imposition of fees. TSA routinely establishes and collects fees to conduct the security threat assessment and credentialing process. These fees apply to all entities requesting a security threat assessment and/or credential. The fees described in this section for an individual who applies to obtain, renew, or replace a TWIC under 49 CFR part 1572, shall be published as a Notice in the Federal Register. TSA reviews the amount of these fees periodically, at least once every two years, to determine the current cost of conducting security threat assessments. Fee amounts and any necessary revisions to the fee amounts shall be determined by current costs, using a method of analysis consistent with widely-accepted accounting principles and practices, and calculated in accordance with the provisions of 31 U.S.C. 9701 and other applicable Federal law.

Issued in Arlington, Virginia, on April 18, 2013.

John S. Pistole, Administrator.

RIN 0648–XC631

Fisheries Off West Coast States; Modifications of the West Coast Commercial and Recreational Salmon Fisheries; Inseason Actions #1 and #2

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification of fishing seasons and landing and possession limits; request for comments.

SUMMARY: NOAA Fisheries announces two inseason actions in the ocean salmon fisheries. These inseason actions modified the commercial fisheries in the area from Cape Falcon, Oregon to Point Arena, California.

DATES: The effective dates for the inseason action are set out in this document under the heading Inseason Actions. Inseason actions remain in effect until modified by additional inseason action or superseded by the 2013 annual management measures on May 1, 2013. Comments will be accepted through May 10, 2013.

ADDRESSES: You may submit comments, identified by NOAA–NMFS–2012–0079, by any one of the following methods:

- Electronic Submissions: Submit all electronic public comments via the Federal eRulemaking Portal. Go to www.regulations.gov and click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Peggy Mundy at 206–526–4323.

SUPPLEMENTARY INFORMATION:

Background
In the 2012 annual management measures for ocean salmon fisheries (77 FR 25915, May 2, 2012), NMFS announced the commercial and recreational fisheries in the area from the U.S./Canada Border to the U.S./Mexico Border, beginning May 1, 2012, and 2013 salmon seasons opening earlier than May 1, 2013. NMFS is authorized to implement inseason management actions to modify fishing seasons and quotas as necessary to provide fishing opportunity while meeting management objectives for the affected species (50 CFR 660.409). Prior to taking inseason action, the Regional Administrator (RA) consults with the Chairman of the Pacific Fishery Management Council (Council) and the appropriate State Directors (50 CFR 660.409(b)(1)). Management of the salmon fisheries is generally divided into two geographic areas: North of Cape Falcon (U.S./Canada Border to Cape Falcon, Oregon) and south of Cape Falcon (Cape Falcon, Oregon to the U.S./Mexico Border). The inseason actions in this document all apply south of Cape Falcon.

Inseason Actions

Inseason Action #1

The RA consulted with representatives of the Council, California Department of Fish and Wildlife (CDFW), and Oregon Department of Fish and Wildlife (ODFW) on March 9, 2013. The information considered during this consultation related to projected abundance of Chinook salmon stocks for the 2013 salmon fishing season.

Inseason action #1 adjusted the scheduled opening date for the commercial salmon fisheries from Cape Falcon, Oregon to Humbug Mountain, Oregon (Newport/Tillamook and Coos Bay subareas) and from Humbug Mountain, Oregon to the Oregon/California Border (Oregon Klamath Management Zone). These fisheries opened on April 1, 2013 rather than March 15, 2013, as previously scheduled in the 2012 management measures. This action was taken to conserve impacts on age-4 Klamath River fall Chinook salmon (KRFG). On March 9, 2013, the states recommended this action and the RA concurred; inseason action #1 took effect on March 15, 2013. This inseason action remains in effect until superseded by inseason action or implementation of 2013 annual management measures which will be effective on May 1, 2013. This inseason action is authorized by 50 CFR 660.409(b)(1).

Inseason Action #2

The RA consulted with representatives of the Council, ODFW, and CDFW on March 9, 2013. The information considered during this consultation related to projected abundance of Chinook salmon stocks for the 2013 salmon fishing season.

Inseason action #2 cancelled the opening scheduled in the commercial fishery from Horse Mountain, California
to Point Arena, California (Fort Bragg subarea), originally scheduled for April 16, 2013. This action was taken to conserve impacts on age-4 KRFC. On March 9, 2013, the states recommended this action and the RA concurred; inseason action #2 took effect on March 15, 2013. This inseason action remains in effect until superseded by inseason action or implementation of 2013 annual management measures which will be effective on May 1, 2013. This inseason action is authorized by 50 CFR 660.409(b)(1).

All other restrictions and regulations remain in effect as announced for the 2012 Ocean Salmon Fisheries and 2012 fisheries opening prior to May 1, 2013 (77 FR 25915, May 2, 2012).

The RA determined that the best available information indicated that the stock abundance, and catch and effort projections supported the above inseason actions recommended by the states. The states manage the fisheries in state waters adjacent to the areas of the U.S. exclusive economic zone in accordance with these Federal actions. As provided by the inseason notice procedures of 50 CFR 660.411, actual notice of the described regulatory actions was given, prior to the date the action was effective, by telephone hotline number 206–526–6667 and 800–662–9825, and by U.S. Coast Guard Notice to Mariners broadcasts on Channel 16 VHF–FM and 2182 kHz.

Classification

The Assistant Administrator for Fisheries, NOAA (AA), finds that good cause exists for this notification to be issued without affording prior notice and opportunity for public comment under 5 U.S.C. 553(b)(B) because such notification would be impracticable. As previously noted, actual notice of the regulatory actions was provided to fishers through telephone hotline and radio notification. These actions comply with the requirements of the annual management measures for ocean salmon fisheries (77 FR 25915, May 2, 2012), the West Coast Salmon Plan, and regulations implementing the West Coast Salmon Plan 50 CFR 660.409 and 660.411. Prior notice and opportunity for public comment was impracticable because NMFS and the state agencies had insufficient time to provide for prior notice and the opportunity for public comment between the time the stock abundance projections were developed and fishery impacts calculated, and the time the fishery modifications had to be implemented in order to ensure that fisheries are managed based on the best available scientific information, thus allowing fishers access to the available fish at the time the fish were available while ensuring that quotas are not exceeded. The AA also finds good cause to waive the 30-day delay in effectiveness required under 5 U.S.C. 553(d)(3), as a delay in effectiveness of these actions would allow fishing at levels inconsistent with the goals of the Salmon Fishery Management Plan and the current management measures.

These actions are authorized by 50 CFR 660.409 and 660.411 and are exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

Dated: April 19, 2013.

Kara Meckley,
Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 121018563–3148–02]

RIN 0648–XC638

Fisheries of the Exclusive Economic Zone Off Alaska; Greenland Turbot in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Greenland turbot in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the 2013 Greenland turbot initial total allowable catch (ITAC) in the Bering Sea subarea of the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), May 1, 2013, through 2400 hrs, A.l.t., December 31, 2013.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2013 Greenland turbot ITAC in the Bering Sea subarea of the BSAI is 1,369 metric tons (mt) as established by the final 2013 and 2014 harvest specifications for groundfish in the BSAI (78 FR 13813, March 1, 2013). In accordance with § 679.20(d)(1)(ii), the Administrator, Alaska Region, NMFS, has determined that the 2013 Greenland turbot ITAC in the Bering Sea subarea of the BSAI will be needed as incidental catch to support other groundfish fisheries. Therefore, the Regional Administrator is establishing a directed fishing allowance of 0 mt, and is setting aside the remaining 1,369 mt as incidental catch. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Greenland turbot in the Bering Sea subarea of the BSAI.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the directed fishing closure of Greenland turbot in the Bering Sea subarea of the BSAI. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of April 19, 2013.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.
